**GENERAL:****RACE 5 : URBAN PACIFIC HANDICAP - 1812 metres**

Stewards questioned Mr. P. Stokes, the Trainer of SOLOIST, regarding a report made by TRSA Stewards conducting a routine stable inspection this morning. Mr. Stokes explained a needle mark on the near side neck of SOLOIST was the result of a blood sample taken from the gelding by his Veterinary Surgeon for pathology testing following an examination which revealed the gelding to be showing signs of tying up behind. As Stewards were able to contact the attending Veterinary Surgeon to confirm the result of the blood test taken from the gelding and acting on an assurance from Mr. Stokes that SOLOIST would be presented free of any prohibited substance for today's event, Stewards determined the gelding be allowed to start. Subsequent to its arrival on course, SOLOIST was examined by the Club's Veterinary Surgeon who determined the gelding unfit to start.
